

Roulette Payout Chart

What every bet pays, how often it wins and what it costs. Payouts are the same on every wheel; the number of zeros sets the price: 5.26% on the American double-zero wheel, 2.70% on a single-zero wheel, 1.35% on even-money bets under La Partage.

BET	PAYS	AMERICAN CHANCE	AMERICAN EDGE	EUROPEAN CHANCE	EUROPEAN EDGE	FRENCH EDGE
Straight up · 1	35 to 1	2.63%	5.26%	2.70%	2.70%	2.70%
Split · 2	17 to 1	5.26%	5.26%	5.41%	2.70%	2.70%
Street · 3	11 to 1	7.89%	5.26%	8.11%	2.70%	2.70%
Corner · 4	8 to 1	10.53%	5.26%	10.81%	2.70%	2.70%
Top line (0-00-1-2-3) · 5	6 to 1	13.16%	7.89%	—	—	—
First four (0-1-2-3) · 4	8 to 1	—	—	10.81%	2.70%	2.70%
Six line · 6	5 to 1	15.79%	5.26%	16.22%	2.70%	2.70%
Dozen · 12	2 to 1	31.58%	5.26%	32.43%	2.70%	2.70%
Column · 12	2 to 1	31.58%	5.26%	32.43%	2.70%	2.70%
Red/black, odd/even, 1-18/19-36 · 18	1 to 1	47.37%	5.26%	48.65%	2.70%	1.35%

Worked payouts

\$10 on straight up 17	+\$350	\$360 back

\$10 on the second dozen	+\$20	\$30 back
\$25 on red	+\$25	\$50 back

Reading the chart

"Pays 35 to 1" means 35 chips of winnings with your own chip returned on top. The chance is per spin. The house edge is the share of every dollar staked that the casino keeps over many spins: \$5.26 of every \$100 on an American table, \$2.70 on a single-zero table. The top line is the one American bet priced worse, at 7.89%. No betting pattern changes these numbers.
